Description	The Lindberg is a small Subriede (climat) of the Wachtberg, which is located directly above our winery - the heart, so to speak. It is a lower area of the Wachtberg, which is terraced more steeply and forms a wind-protected basin. Overall, this results in a warmer and more powerful character in the wine. Above all, the wines from the Lindberg manifest their geological origins, which are shaped by the Gföhl gneiss, thanks to their salty and smoky nuances.	
	2024 - charming wines with good ripeness and round acidity. The weather was very much influenced by climate change. The bud break happened at the End of March, a month earlier than average. The four frosty nights in the third week of April slowed growth, but also caused significant losses in volume. Consistently warm temperatures and a good water supply ensured rapid ripening. The harvest started at the End of August. In mid-September, huge amounts of rain interrupted the harvest, which ended at the beginning of October.
