KREMSTAL

Kremstal DAC
Grüner Veltliner 2022

Origin & Vinification

This grapes for this wine are sourced from various vineyards surrounding our beautiful city. Here, a mix of Danube gravel, loess and crystalline rocks form the basis of this Grüner Veltliner.

Climatically the cooler Waldviertel region contributes to the freshness of this wine and warm Pannonian air masses from the east give the wine a charming and balanced fruit.

In October 2022, the grapes for this Grüner Veltliner were harvested by hand. Under controlled temperature the must fermented in stainless steel tanks until it stopped naturally. Bottled in January 2023.
