Description	From the top of this high hill the citizens of Krems were warned of approaching enemies during historical times (Wachtberg can be roughly translated as 'Lookout Mountain'). The extensive southeast-facing terraces of the Wachtberg vineyard site reach up to 400 meters above sea level. Due to that, Grüner Veltliner grapes ripen at high altitudes above average late and ensure a cool climate Character.	
	2025 – “cool” wines with vibrant acidity and pure terroir character. After a mild winter, vegetation in the Kremstal region began with bud break in mid-April. A period of changeable weather until flowering (second week of June) was followed by a heat wave. The summer months were accompanied by ideal rainfall. Cool nights, especially from mid-August onwards, characterized the ripening phase. Unsettled weather made the harvest, which began in the third week of September, a test of patience requiring several passes.
