Description	The finest wines in the Danube region grow on the steep terraced vineyards of Stein an der Donau. Here, in the neighboring village of Loiben, is the gateway to the Wachau. The narrow Danube valley Wachau opens up to the east at this point. Here, vines grow on the rockiest soils and enjoy perfect insolation. You can also clearly feel the invigorating west winds, which protect the vines from fungal diseases. Wines from Stein embody ripe stone fruit with depth and pronounced nuances of tobacco. Wines that get an extra dose of ageing potential.	
	2025 – “cool” wines with vibrant acidity and pure terroir character. After a mild winter, vegetation in the Kremstal region began with bud break in mid-April. A period of changeable weather until flowering (second week of June) was followed by a heat wave. The summer months were accompanied by ideal rainfall. Cool nights, especially from mid-August onwards, characterized the ripening phase. Unsettled weather made the harvest, which began in the third week of September, a test of patience requiring several passes.
